

Knowledge Exchange Sessions

Session One

OVERVIEW AND REGISTRATION **DAY ONE - THURSDAY 10TH DECEMBER** **SESSION ONE - 12:30-14:30 AEDT**

DEVELOPING AND DELIVERING CAPACITY BUILDING PROJECTS AND INITIATIVES IN PARAVET AND AGRICULTURE SETTINGS AND THE OPPORTUNITIES AND CHALLENGES OF OPEN ONLINE LEARNING IN ENSURING ACCESS, UPTAKE AND SUSTAINABILITY

Overview

This session focuses on learning lessons from past paravet capacity building initiatives and agricultural programs and sharing those lessons and observations through both formal presentations and an active knowledge exchange. The session will also explore the role of open, distance and on-line learning, the principals and practices that underpin new models of learning and how we can begin to rethink future focused education and capacity building delivered online.

Format

This session is a mix of active participant knowledge exchange and formal presentations and case studies weaved throughout the 2 hour session.

The open Knowledge Exchange Sessions will ask:

- What can we learn from past initiatives, projects and programs both in paravet specific examples and broader agricultural settings?
- What are the opportunities and challenges for distance and open learning?
- And how do we apply these lessons to new initiatives and projects aimed at building workforce and community capabilities in a way that is effective and sustainable?

Presenters and Presentation

Dr Mike Nunn - Animal Health Services in the Pacific Islands: The context for Paravet Training

Dr Som Naidu - Recalibrating Institutional Choreographies for a Future Focused Education - Examining potential areas of disruption, their key drivers, and where and how to begin a rethink and recalibration of how we can create, capture and add value

Dr Cooper Schouten - The Five Pillars for Agricultural Development - A framework for identifying the key considerations in agricultural development interventions
